

# FEEL GOOD ABOUT YOUR FUEL

## ALL HEATING FUEL IN NEW YORK IS A BLEND OF BIOHEAT® FUEL

Bioheat® fuel is a blend of ultra-low sulfur heating fuel & renewable biodiesel. Blends range up to 20% biodiesel.

### GOOD FOR AGRICULTURE

#### MADE WITH SOYBEAN OIL & INEDIBLE CORN OIL

These feedstocks are waste or by-products of existing food supply lines.

#### 46% OF BIOFUEL FEEDSTOCKS = SOYBEAN OIL

Provides a market for by-products such as soybean oil and inedible corn oil. *Source: USDA*

#### SUPPORTS LOCAL FARMERS

Creates demand for crops, providing revenue for farmers in NY and across the US, and helps stabilize prices.

### EASIER ON YOUR WALLET

#### \$0 COSTS IN EQUIPMENT

All you need is your heating system and fuel tank to use Bioheat® fuel.

#### UP TO 20¢ PER GALLON TAX CREDIT

when Bioheat® fuel with 6% biodiesel or more is used for heat and hot water in New York State.

#### OPTIONS FOR LOWER HEATING BILLS

Ask your heating company about budget plans and price protection options.

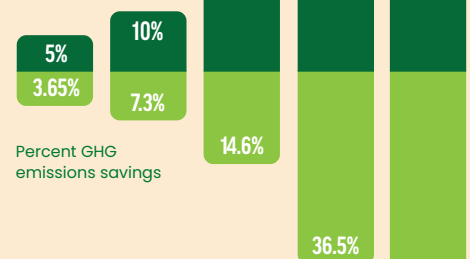

### BETTER FOR THE ENVIRONMENT

#### REDUCES EMISSIONS

UP TO 86%

#### WITH 100% BIODIESEL BLEND\*

Percent biodiesel blended into home heating oil:

\*74% average across all feedstock
